25X1

4. [redacted] Talked with Alex Schnee, State Department, who indicated the new position on the Fulbright amendment which had been agreed to by Fulbright and the Department was that the thrust of the Fulbright amendments would not be applicable to the current effort in the Dominican Republic.

25X1

5. [redacted] Talked with Representative George Miller, just returned from the Paris air show, who indicated that [redacted]

25X1

[redacted] Mr. Miller said he assumed that this was probably so. Mr. Miller then mentioned that three of his Committee staff people (House Science and Astronautics Committee) who are engineers might have some information on this and arrangements were subsequently made to debrief the three staff men. The three staff men are: W. M. (Dan) Deane, Peter A. Gerard, and James E. Wilson. Present for this briefing from the Agency were:

25X1

[redacted] and John S. Warner. [redacted] kept notes although there were no significant pieces of information. We did take the opportunity to brief this group on our [redacted] program

25X1

6. [redacted] Talked with Carl Marcy, Staff Director of Senate Foreign Relations Committee, in connection with the proposed hearings on the Dominican Republic. Marcy stated that the Chairman had sent a letter to Secretary Rusk indicating that the Committee wished to hold executive committee meetings on all aspects of the Dominican Republic crisis including DOD actions, State actions, and the intelligence community. That letter had asked that one person be designated for the Committee to deal with in the executive branch. Rusk apparently responded designating Jack Vaughan. Further, [redacted] has had two meetings with Vaughan in which it was indicated they would like to review documents including cable traffic and national intelligence estimates. Apparently [redacted] was advised that certain of these, specifically cable traffic and NIEs, would be a matter for White House decision.
